FOREWORD

A sound information system is an essential pre requisite for proper planning . Directorate of Economics and Statistics, being the nodal agency of all statistical activities in the Union Territory of Pondicherry collects, compiles and disseminates the data on the Socio-economic charecteristics of the U.T.of Pondicherry in the publication 'Abstract of Statistics'. The present issue of the publication is the Twenty Sixth edition in the series.

The Abstract of Statistics contains detailed time series data on development indicators for various Socio-Economic data users. All sorts of socio economic data are arranged into 25 chapters and each chapter has an explanatory note giving the description of tables, methodology of data collection and its coverage. The data are given generally for ten years and in some cases for three years and the latest being 1997-98. The Directorate of Economics and Statistics has made concerted efforts to update as well as to make the present issue more meaningful and useful by effecting improvements in the content and pictorial presentation. The new features added in the present publication are religion-wise population, population by age group consumption of fertilizers, production of milk and eggs and estimation of State income and percapita income as per new series with 1993-94 as base. Graphical illustrations of data have also been incorporated at the end of every chapter.

Publication Division, Directorate of Economics and Statistics, is responsible for data collection, maintenance, updation and preparation of charts, incorporation of pictures and generation of the manuscript in camera-ready form.

I appreciate the efforts taken by the Directorate officials for reducing the time lag considerably in the release of Abstract of Statistics containing micro level data which is required for planning. I hope that users in general and those in the Government especially planners would be benefited from this publication.

PREFACE

The current issue of the Abstract of Statistics provides comprehensive information on the socio-economic characteristics of the Union Territory and is intended to serve as an important source material for statistical time series of different sections of the union territory of Pondicherry.

This issue is Twenty Sixth in the series and information included in the issue pertains to the calendar years 1996, 1997 and 1998 or financial / agricultural years 1995-96, 1996-97 and 1997-98. The publication gives region-wise statistical particulars and it is one of the most useful publications of the Directorate.

This Directorate acknowledges with gratitude the co-operation extended by different Heads of Departments and the Government and Non-Governmental Agencies in making available the statistical data in time for this publication.

I also place on record my appreciation to the officers and staff of the Publication Division who have spared no efforts to effect improvements in the coverage and presentation of the publication.

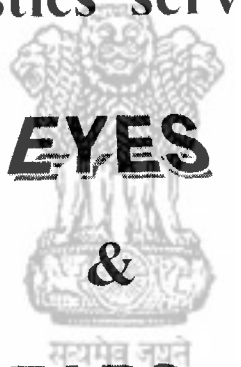

I hope that this publication will be of immense use to the Planners, administrators and research workers in understanding changes taking place in the Socio-economic scenario of the State.

The formulae used are as follows

1. Live-birth rate/death rate :
per1,000 population.

Total live births/deaths x 1,000
Estimated mid-year population

2. Still-birth rate per 1,000 live and still-births :

Total still-births x 1,000
Total live-births+Total still births

3. Infant death rate

Total infant deaths x 1,000
Total live-births.

4. Maternal mortality rate

Total maternal deaths x 1,000
Total live-births.

TABLE 6.8a, 6.8b & 6.8c :
